

Hampton Loomed Wicker

CARE & MAINTENANCE and WARRANTY

This fine wicker is woven over all aluminum, fully welded frames that will not rust and includes vertical 12 strand stainless steel cables embedded in the wicker for incredible strength that will not wear out over time. The weather resistant finish combined with the tight weave creates a "snag free" wicker set that is smooth to the touch and sure to impress!

Care & Maintenance

Loomed Wicker furniture should last a long time and with proper maintenance, even longer! Here are some of the basic things that can keep your furniture looking like new:

Always wear eye and skin protection to prevent liquid or other materials from entering your body while performing maintenance tasks as described here.

Soiling and Spills:

If you notice soiling or a spill, it is best to remove it right away. Large debris (like leaves) should be picked up by hand. Light soiling and dirt can often be removed by rinsing the product with fresh water and brushing it with a soft-bristle brush.

To remove stubborn dirt or stains from the frame or heavy soiling that has accumulated over time, clean the furniture with warm soapy water and use a soft bristle brush if needed.

Cushions and Fabric:

After a soaking rain or anytime the cores of the cushions get wet, it is best to stand the cushion on end to allow water to drain more quickly. This will help prevent mold and mildew growth between the frame and the cushions.

Spot wash the fabric to clean spills by using a sponge or a soft bristle brush with a warm soapy solution of mild detergent (dish washing soap works well). Brush or sponge the soiled area and rinse thoroughly with fresh water. Allow to air dry and repeat as necessary.

DO NOT USE MACHINE WASH OR MACHINE DRY THE CUSHION CASINGS. DOING SO MAY DAMAGE THE SEAMS OF THE CASE.
